

Solder plus Support

DJAW-10

Stencil Cleaner

Features:

- Extends Paste Life
- Faster Evaporation
- Reduces Paste Dry-Out
- Will Not Cause Slumping
- Increases Wipe Cycle Times
- Enhances Paste Release
- Compatible with Most Plastics
- Eliminates Double Wiping

Description:

DJAW-10 is a long chained alcohol based stencil cleaner with a concentrated additive that is 100% compatible with all AIM solder pastes. DJAW-10 offers a faster evaporation rate than DJAW. DJAW-10 is formulated for application by hand or automated dispensing equipment. Unlike other stencil cleaners, AIM stencil cleaners help to reduce solder paste dry-out while enhancing its release from even the finest apertures, allowing a greater number of print cycles between cleaning. The use of DJAW-10 stencil cleaner eliminates pause to print dry out issues when used with NC257-2 paste.

Physical Properties:

ITEM	SPECIFICATION
Appearance & Odor	Clear Liquid, No Odor
Specific Gravity	.79
Boiling Point	133.44° C (272.19° F)

Application:

- DJAW-10 is shipped ready to use. No mixing or thinning is required.
- Spray DJAW-10 in small amounts on a lint-free cloth. It is not recommended that it be applied directly to the stencil. Wipe clean any excess DJAW -10 from the stencil before proceeding.
- PCBs and components can safely be immersed or cleaned with DJAW -10.

Packaging:

DJAW-10 is available in 1, 5 and 55 gallon containers.

Handling:

- DJAW-10 has a sealed shelf life of 2 years.
- Do not freeze this product.
- Do not store near fire or flame.
- Keep away from sunlight as it may degrade product.
- Do not mix used and unused chemical in the same container.
- Reseal any opened containers.

Safety:

- Use with adequate ventilation and proper personal protective equipment.
- Refer to the accompanying Material Safety Data Sheet for any specific emergency information.
- Do not dispose of any hazardous materials in non-approved containers.
